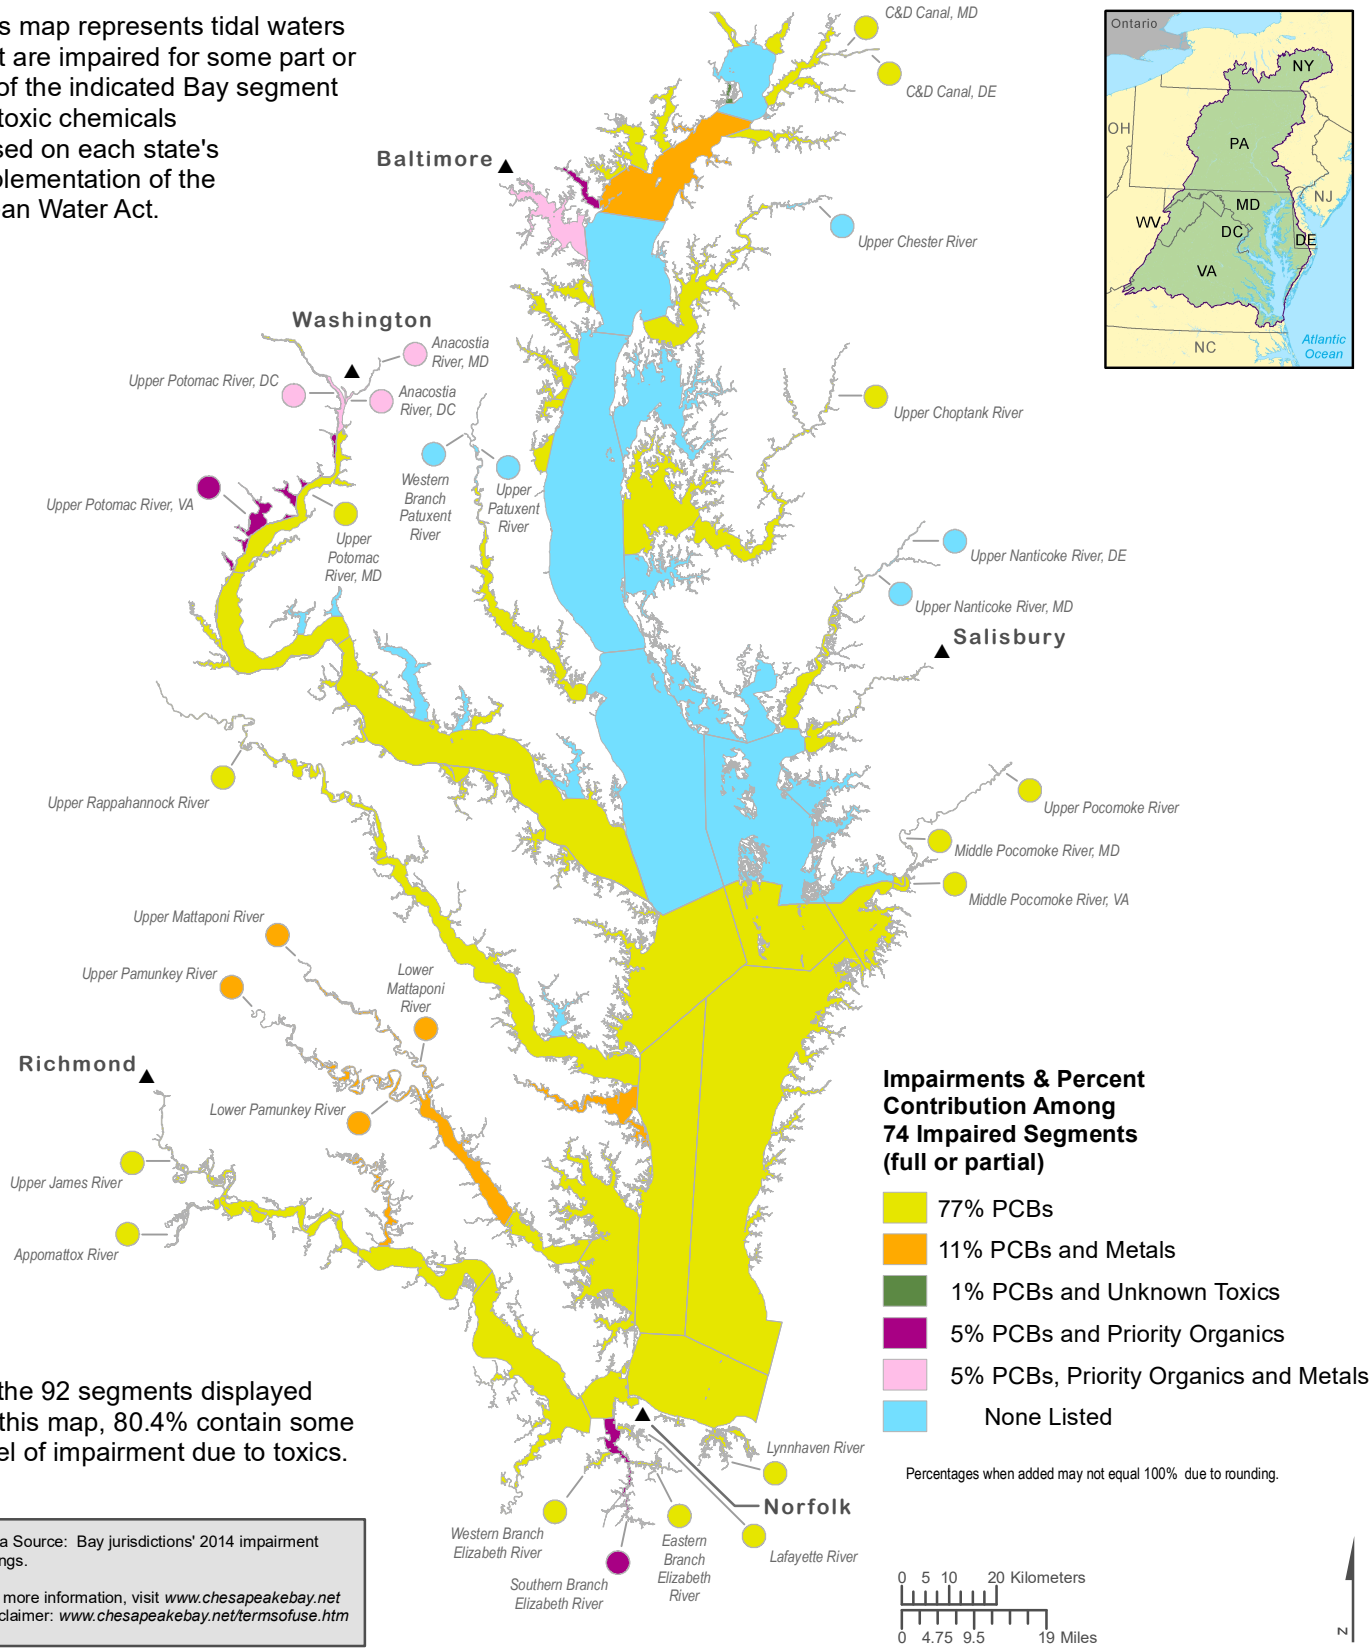
Chemical Contaminants (2014)

Impairments Illustrated Using the Chesapeake Bay Segmentation Scheme

Chesapeake Bay Program
A Watershed Partnership

This map represents tidal waters that are impaired for some part or all of the indicated Bay segment by toxic chemicals based on each state's implementation of the Clean Water Act.



Of the 92 segments displayed on this map, 80.4% contain some level of impairment due to toxics.

Data Source: Bay jurisdictions' 2014 impairment listings.
