LAND TYPES AS USED IN THE TREE CANOPY ANALYSIS (Lancaster County, PA)

Definitions
TC Land Total Acres: Total Acres within each boundary minus water
TC Existing Acres: Current tree cover
TC Possible Acres: Sum of Possible Vegetation and Possible Impervious
TC Possible Impervious: Asphalt and concrete surfaces, excluding roads and buildings, that are theoretically available for establishment of tree canopy, AKA: you need a jack hammer to plant a tree
TC Possible Vegetated: Grass or shrub area that is theoretically available for the establishment of tree canopy, FYI: includes baseball fields, ect.
TC Land Total = TC Existing **plus** TC Possible **plus** Roads/Buildings
