

- Bay Radio – Regular podcast online or feature on broadcast radio that features Bay-related research/monitoring issues.
- DNR is working with an intern to produce animated time series Google Maps similar to this Japanese earthquake/tsunami example.
<http://www.japanquakemap.com/>
- Eyes on the Bay enhancements:
 - Real-time conditions
 - Productivity/'obesity' maps
 - Revamped charting back-end
 - Better mobile app
- People are 5x (unscientific estimate from our twitter postings) more likely to view a visual than a story.
- Trying to work with NASA to build 3D Pixar-like dead zone visualizations, showing 2012 drought (as a surrogate for achieving nutrient mgmt goals) vs 2011 wet year conditions to show what to expect in a reduced nutrient Bay.
