11:00 Introductions and Roll Call

11:15 Brook Trout Workgroup Science Needs

In collaboration with the Strategic Review System (SRS) process, the Brook Trout Workgroup is updating our science needs. These “science needs” are necessary in making progress towards the workgroup outcome. We will be reviewing the updated science needs for the workgroup, and accepting any feedback at this time.

11:45 Update to the Workplan

The Brook Trout Workgroup – part of the Healthy Watersheds Cohort – is currently undergoing the SRS review process. As part of this biennial review cycle, the workgroup is updating the workplan. We will be revising the existing workplan and would appreciate any comments or suggestions on ways to improve the document this time.

12:35 Other Updates

12:50 Wrap-up and Adjourn Meeting
