

Chesapeake Bay Stock Assessment Committee Membership Application

**Please submit completed application
and CV (including references) to:**

Ingrid Braun-Ricks
CBSAC Chair
ingrid.braun-ricks@prfc.us

The Chesapeake Bay Stock Assessment Committee (CBSAC) is a technical workgroup within the Chesapeake Bay Program, supporting the Sustainable Fisheries Goal Implementation Team. The role of CBSAC is to identify and implement strategic science priorities that support resource management, and provide management jurisdictions with science-based advice for sustaining the blue crab stock in the Chesapeake Bay. As a voting member of CBSAC, you would be expected to fully participate in meetings, report preparations, and scientific analyses that support blue crab management. Additional information about the Committee can be found in the [charter](#).
