

# AMT Partnership Updates

6/12/2026

Tom Butler, EPA

# Changes in the partnership

---

The Chesapeake Bay Program utilizes an array of expertise to meet relevant goals.

---

The current structure of the partnership has grown to meet these needs.

---

The multitude of groups has created bottlenecks that have complicated partnership functions.

---

Changes are being made to streamline workgroups and the flow of information to relevant topics.

# What does this mean for us?

## Short term:

- Nothing
  - Will continue reviewing data and inputs until completion of Phase 7
  - ~2027

## Long term:

- AMT becomes “renewable” action team
  - Input related topics come up and be assigned
  - Sunset after addressing specific topic

# Useful links and resources:

- April [Clean Water Goal Team](#) (Formerly Water Quality GIT)
