

## Data Input Deadlines to Inform Future Years of Milestone Planning and Progress Updates

**August 31, 2018** – Interim BMPs approved by workgroups and the Water Quality GIT to inform Phase III WIP input deck submissions (i.e. BMP implementation data)

**April 30, 2019** – All data from state partners must be submitted to CBPO. Any data submitted past this date will not be considered for the 2020-2021 Milestones. This includes all of the following:

- County-level population, housing, and employment projections
- Zoning
- Updates/changes to State-specific future scenarios
- Sewer service area boundaries
- MS4 area boundaries
- Septic system growth by County and/or LRSEG (three or five-year trend)
- Construction acres by county or LRSEG
- Harvested forest acres by county or LRSEG
- Animal populations by county (minimum of three-year trend)
- Permitted/Non-permitted animal fractions by county
- Nutrient concentration for animals (minimum of three-year trend)
- Manure or litter mass per animal (minimum of three-year trend)
- Fertilizer and manure applications by county
- WWTP estimated loads for 2020 through 2025
- Biosolid mass and nutrient concentration application by county
- Approved BMP expert panel reports and interim BMPs

**June 29, 2019** – All data from external sources must be submitted to, or gathered by, CBPO. Any data submitted or gathered after this date will not be considered for the 2020-2021 Milestones. This includes all of the following:

- Land cover change hotspots (used to inform trends in land use for 2020-2021 Milestones and compare to forecasted changes in land use)
- Human population estimates (US Census Bureau)
