

**2014 Agricultural Priority BMPs for Development of Nutrient Reduction Crediting
Chesapeake Bay Program Agriculture Workgroup**

State Lists

| Phase 6 Priority | Phase 5 Priority | BMP Name | BMP Status |
|---------------------|---------------------|---|---------------|
| DE1 | DE1 | Cropland Irrigation Management | I |
| DE2 | DE2 | Multiple Width Grass and Forest Buffers | N |
| DE3 | DE3 | Poultry Heavy Use Area Concrete Pads | N |
| DE4 | DE4 | Tax Ditch Restoration BMPs | N |
| MD1 | --- | Manure Injection / Manure Incorporation | I/N |
| MD2 | MD1 | Nursery and Greenhouse Runoff Capture and Reuse | I |
| MD3 | MD2 | Poultry Heavy Use Area Concrete Pads | N |
| MD4 | MD3 | Cropland Irrigation Management | I |
| MD5 | MD4 | Multiple Width Grass and Forest Buffers | N |
| MD6 | MD5 | Vegetative Environmental Buffers | I |
| NY1 | NY1 | Animal Waste Storage Facilities | E |
| NY2 | --- | Manure Injection / Manure Incorporation | I/N |
| NY3 | NY2 | Cropland Irrigation Management | I |
| NY4 | NY3 | Nursery and Greenhouse Runoff Capture and Reuse | I |
| NY5 | NY4 | Poultry Heavy Use Area Concrete Pads | N |
| PA1 | PA1 | Non-Urban Stream Restoration/Legacy Sediments | E |
| PA2 | --- | Manure Injection / Manure Incorporation | I/N |
| PA3 | PA2 | Vegetative Environmental Buffers | I |
| VA1 | VA1 | Animal Waste Storage Facilities | E |
| VA2 | --- | Manure Injection / Manure Incorporation | I/N |
| VA3 | VA2 | Cropland Irrigation Management | I |
| VA4 | VA3 | Nursery and Greenhouse Runoff Capture and Reuse | I |
| VA5 | VA4 | Poultry Heavy Use Area Concrete Pads | N |
| WV1 | WV1 | Agricultural Stormwater Structures for AFO Production Areas | N |
| WV2 | WV2 | Poultry Heavy Use Area Concrete Pads | N |
| WV3 | WV3 | Karst Sinkhole Grass Buffers | N |

Notes:

E = Existing, I = Interim, N = New

DE, MD, PA, and WV priorities are revised as of 2/10/14

NY and VA priorities are same as 1/14/11 list, minus BMPs already addressed or currently being addressed (i.e. Nutrient Management, Cover Crop, Manure Treatment Technologies)

Agricultural BMP Evaluation Priorities for Chesapeake Bay Program Modeling Tools

| Tier | State Priority | BMP Name | BMP Status | Model Version |
|------|-------------------------|---|------------|---------------|
| 1 | MD1, NY2, PA2, VA2 | Manure Injection / Manure Incorporation | I/N | Phase 6 |
| 1 | DE1, NY3, VA3, MD4 | Cropland Irrigation Management | I | Phase 5 & 6 |
| 1 | NY1, VA1 | Animal Waste Storage Facilities | E | Phase 5 & 6 |
| 1 | PA1 | Non-Urban Stream Restoration/Legacy Sediments | E | Phase 5 & 6 |
| 1 | WV1 | Agricultural Stormwater Structures for AFO Production Areas | N | Phase 5 & 6 |
| 2 | WV2, DE3, MD3, NY5, VA5 | Poultry Heavy Use Area Concrete Pads | N | Phase 5 & 6 |
| 2 | MD2, NY4, VA4 | Nursery and Greenhouse Runoff Capture and Reuse | I | Phase 5 & 6 |
| 3 | PA3, MD6 | Vegetative Environmental Buffers | I | Phase 5 & 6 |
| 3 | WV3 | Karst Sinkhole Grass Buffers | N | Phase 5 & 6 |
| 4 | DE4 | Tax Ditch Restoration BMPs | N | Phase 5 & 6 |
| N/A | DE2, MD5 | Multiple Width Grass and Forest Buffers | N | N/A* |

Notes:

A BMP was placed in Tier 1 if at least one state listed the BMP as their #1 priority; Tier 2 if at least one state listed the BMP as their #2 priority, etc.

E = Existing, I = Interim, N = New

DE, MD, PA, and WV priorities are revised as of 2/10/14

NY and VA priorities are same as 1/14/11 list, minus BMPs already addressed or currently being addressed

(i.e. Nutrient Management, Cover Crop, Manure Treatment Technologies)

**AgWG approved a Land Use change for multiple width grass and forest buffers; expert panel review no longer needed*
