LOOKING BACK...

IMPLEMENTATION OF CLIMATE DIRECTIVE

Chesapeake Executive Council
*Directive No. 21-1 Collective Action for Climate
Change*

- Principals' Staff Committee is directed to do the following:
 - **Address the threats** of climate change in all aspects of the partnership's work to restore the Chesapeake Bay and its watershed.
 - **Prioritize** communities and habitats most vulnerable to ever-increasing risks.
 - **Apply** the best scientific, modeling, monitoring and planning capabilities of the Chesapeake Bay Program.
 - **Connect** Chesapeake Bay restoration goals with emerging opportunities in climate adaption, mitigation and resilience.

WORKPLAN APPROACH

Section A: 2022-2024 Recommended Partnership Actions

- Address identified needs
- Foundational and effective
- To be completed or substantively initiated by 2024
- “Suited” for CBP—requiring collaborative partner participation and MB direction

Appendix: Current and Planned Efforts to Advance EC CC Directive

- Includes CBP, MD, DE, DC, NY, VA and Federal Agency Commitments.

RECOMMENDED PARTNERSHIP ACTIONS

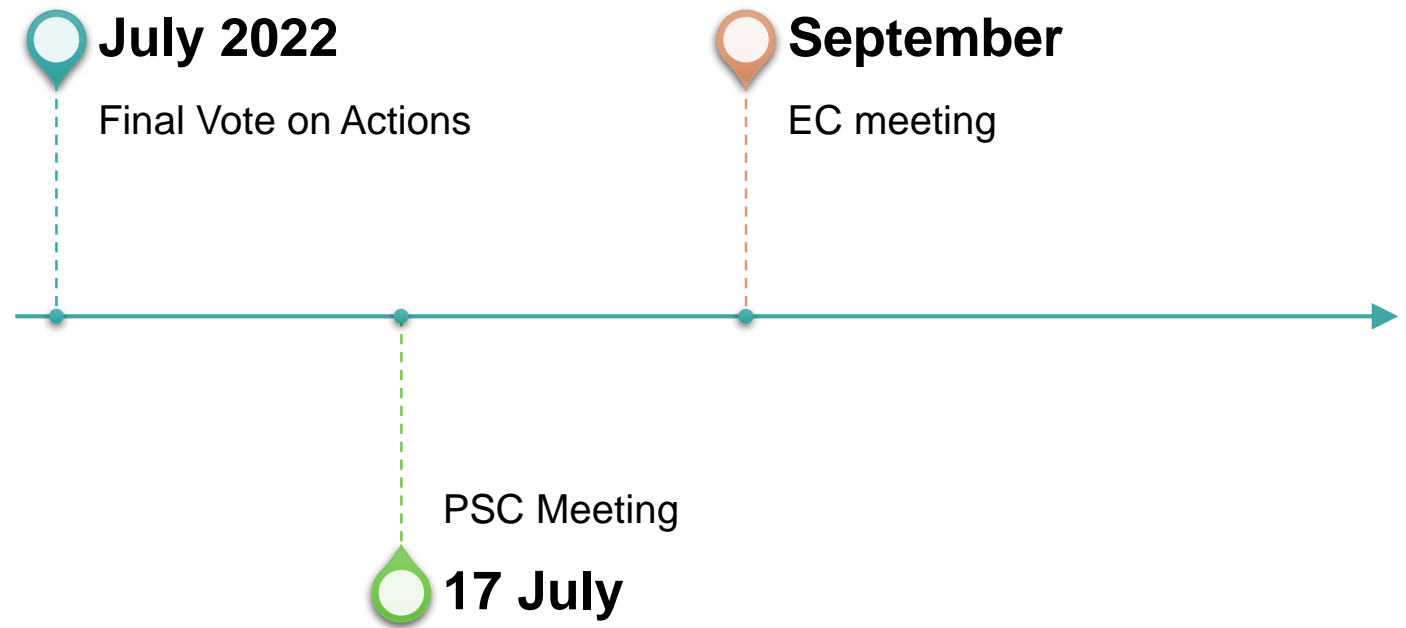

- Refine and prioritize climate science needs and develop a resource plan.
- A Climate Directive pilot project.
- Advance conservation finance priorities.
- Improve coordination on infrastructure funding for climate.

RECOMMENDED PARTNERSHIP ACTIONS

- Establish a learning and capacity building network.
- Next steps for implementing the PSC Monitoring Report recommendations related to climate monitoring.
- Create a Bay-wide plan for tidal wetland restoration, marsh migration, and coastal resiliency.
- Complete climate change-related activities crosswalk and establish a mechanism for reporting future climate work.

NEXT STEPS AND TIMELINE
