# Local Leadership Workgroup Update

Martha Narvaez, LLWG Chair

# Agenda

---

---

---

1 Workplan Update

2 Technical Assistance  
Inventory and Gap  
Analysis

3 August QM Recap  
*Talking toxics with local officials*

4

Local Leadership Survey  
*Findings and Figures*

5

DC Peer to Peer  
*Equitable Access to Green Space*

1

# Workplan Update

# Workplan Update

- On track or complete – 14 actions 
  - Risk of Getting Off-Track – 0 actions 
  - Off Track – 0 actions 
- Current workplan ends in February 2025
  - Working through the Strategy Review System as we speak to update our workplan

# Technical Assistance Inventory and Gap Analysis

---

---

# Technical Assistance Inventory and Gap Analysis

- Identify and inventory existing local government technical assistance programs that align with the *Chesapeake Bay Watershed Agreement* outcomes.
- Compile standardized information about each technical assistance program (geographic scope, funding source, types of local governments served, type of services offered, costs, and key watershed agreement outcomes the technical assistance addresses).

---

---

---

# Technical Assistance Inventory and Gap Analysis

- Define and analyze gaps (regions, types of local governments, types of services offered, watershed agreement outcomes covered) in existing technical assistance programs.
- Recommend approach to fill gaps in technical assistance to local governments to drive increased implementation towards meeting watershed agreement outcomes.

# August Quarterly Meeting

*Talking Toxics with Local Governments*

# August Quarterly Meeting

Support Local Governments in  
Addressing Toxic and  
Emerging Contaminants

# August Quarterly Meeting

## Technical Assistance to Brownfield Communities

### EPA's Technical Assistance to Brownfields (TAB) Communities Program

Transforming environmental liabilities  
into community assets

United States  
Environmental Protection  
Agency

# Local Leadership Survey

## *Findings and Figures*

# Local Leadership Survey

- 200 respondents from communities in all six states in the Bay watershed and Washington, D.C.

**Community Population**

**State**

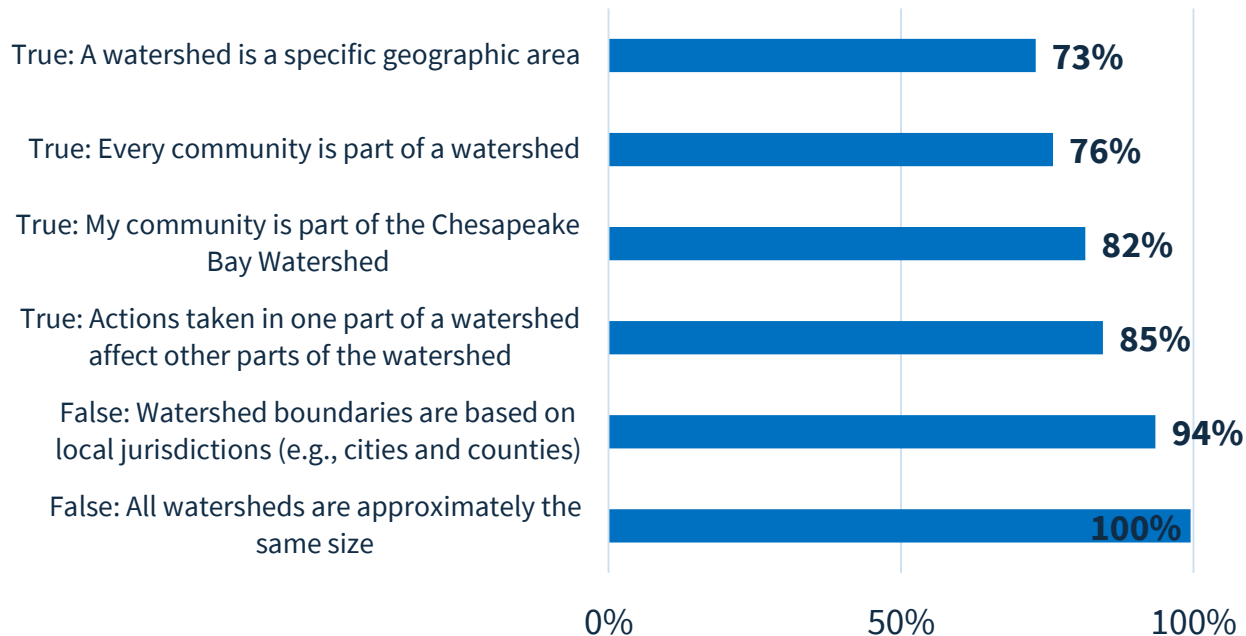

# Local Leadership Survey – Key Takeaways

**# of Correct Answers**

**% Correct**

# Local Leadership Survey – Key Takeaways

## Rules Community is Subject to

- Understanding of regulations was lowest for officials with less than 2 years experience and highest for those with 11+ years experience.

# Local Leadership Survey – Key Takeaways

- Half (50%) think about downstream communities when making policy decisions. Respondents were more inclined to see others' decisions impacting their own communities vs. their decisions impacting other communities.

**Perceived Impact of Decisions**

# Local Leadership Survey – Key Takeaways

- Mitigating flooding **remained** as a top local priority to water resources.

# Local Leadership Survey – Key Takeaways

- **Majority** say they have a contact person to consult for more information on water resources or how to implement environmental policy.
  - Highest reporting of “NO” was from local officials with less than 3,000 residents

*Question 15: If you had a question about water resources or how best to implement environmental policy, do you have a knowledgeable person or source you could go to for assistance?*

# Local Leadership Survey – Key Takeaways

- Stormwater management **remained** as key tool to protect water resources with erosion/sediment control and comprehensive planning highly considered.

# Local Leadership Survey – Key Takeaways

## Actions Taken

- Almost all respondents (95%) reported taking actions related to water resources.

---

---

---

# Local Leadership Survey – Key Takeaways

- Smaller communities (especially those with fewer than 10,000 residents) **remained** lower in using tools, taking fewer actions, not understanding regulations as well, and lower knowledge scores.
- Officials in office longer (11+ years) **continued** to report less uncertainty about whether various federal regulations apply to their communities and higher understanding of state regulations.

# DC Peer to Peer Tour

*Facilitating Equitable Access to  
Greenspace*

# DC Peer to Peer

P2Ps in all watershed  
jurisdictions!

# Thank you!
