

Healthy Forests and Trees Draft Management Strategy

Healthy Landscapes Goal Team
September 2026

Review and Approvals

- Reviewed updates at Sept 2nd FWG meeting and requested consent following the meeting via email
- No objections were received so the draft Strategy was approved to proceed to the goal team on 9/11

Input from Strategic Engagement Team (SET)

- Make more explicit connections with other Bay Program groups where there are opportunities for collaboration (Workforce, SET, Local Government Leadership, etc.)
- SET can help amplify the impact of resources we develop through a technical service provider network they are developing
- Think about how we measure impact of outreach and engagement efforts (flag for Workplan development)

Made minor modifications to the draft to reflect these changes, resubmitted to the Goal Team on 10/2

Signatory Programs and Authorities

- Collected signatory programs and authorities for each target from signatory FWG members (~4 pages of signatory programs)
- Signatory programs and authorities collected by CBPO will be used instead and will be put into an appendix

Timeline and Next Steps

- Oct 19th: Goal Team chairs provide draft Management Strategy chapters to be compiled and distributed to the PSC by Oct 22nd
- Nov 5th: PSC meeting- provide feedback on revisions needed prior to release for public feedback
- Nov 20th: Goal Teams finalize revisions based on feedback
- Dec 3rd: Full draft Strategic Plan provided to PSC
- Dec 3-18: PSC votes to release the draft plan for public feedback
- Jan 5-31: Public feedback period
- March: Goal Teams complete a revised Strategic Plan draft
- April: PSC feedback
- May: Goal Teams complete final revisions
- June: PSC approves final Strategic Plan

Planning the workplan

Flagging input from the WG, GT and other groups that can help inform the workplan

Waiting for input from the PSC and the public before initiating focused work on the workplan

Likely convening an in-person meeting/retreat in February for focused workplan work

Any questions or
comments?
