## Annual Recommendations to the Executive Council

<b>2013</b>	<ol style="list-style-type: none"><li>1. Funding for watershed protection and restoration is inadequate.</li><li>2. Communications with local governments must improve.</li><li>3. Headwater states should be represented in Advisory Committees.</li></ol>
<b>2014</b>	<ol style="list-style-type: none"><li>1. Support local contractor training programs.</li><li>2. Target job training dollars to emerging restoration and protection industries.</li><li>3. Adequately staff environmental programs.</li><li>4. Develop and communicate protocols for local governments, conservation districts, or other responsible parties to report, track and verify BMPs.</li></ol>
<b>2015</b>	<ol style="list-style-type: none"><li>1. Enhance communication.</li><li>2. Align priorities strategically.</li><li>3. Convene a Watershed-wide Symposium on Financing.</li></ol>
<b>2016</b>	<ol style="list-style-type: none"><li>1. Increase resources dedicated to implementation.</li><li>2. Speak out on behalf of Clean Water.</li><li>3. Ensure vertical alignment of priorities.</li></ol>
<b>2017</b>	<ol style="list-style-type: none"><li>1. Continue to support local government engagement efforts</li><li>2. Increase the access to Technical Assistance</li></ol>
<b>2018</b>	<ol style="list-style-type: none"><li>1. Continue focus on better engaging local government</li><li>2. Provide the tools and resources local governments need to succeed</li></ol>
<b>2019</b>	<ol style="list-style-type: none"><li>1. Support a one day summit of flood, climate and disaster experts</li><li>2. Including a FEMA representative on Management Board</li><li>3. Federal, state and local governments align their interests, prioritize efforts, and invest funds strategically and collaboratively</li><li>4. LGAC semi-annual meetings with Governors/Mayor</li></ol>

## Looking ahead into 2020 and beyond: Discussion with LGAC Members

### *Useful to think about LGAC's impact:*

Does anything come from LGAC recommendations?

What is LGAC's leverage/sweet spot?

Where should LGAC focus in 2020?
