Fisheries GIT

Oyster Metric Team Update

- Stephanie Westby will update the Executive Committee on the team's progress

Catfish Workgroup Proposal

- Handout: *Catfish Workgroup Paper v3.pdf*
- Discussion with Greg Garman on team's next steps:
 - Kill-on-capture will be difficult to implement/enforce and will not significantly reduce populations
 - Full eradication is not physically or monetarily feasible
- The team could scope out potential "control" approaches:
 - 1.) Public awareness campaign to educate and inform public
 - 2.) "Control" and "Surveillance" Pilot Project: (should include)
 - a. Develop a control pilot project for select (MD and VA) tribes
 - b. Create baseline GIS model of all potential blue catfish habitats across the bay
 - c. Design a targeted monitoring/surveillance and rapid response system to control spread

Proposed FEW Short-Term EBFM Activities for 2011-2012
