

Chesapeake Bay Program
Science. Restoration. Partnership.

Management Strategy Development Overview

Wastewater Treatment Workgroup Meeting | June 25, 2026

Strategic Plan Chapters & Sub-sections

RENPS, Toxics, & WQSAM Sub-Sections

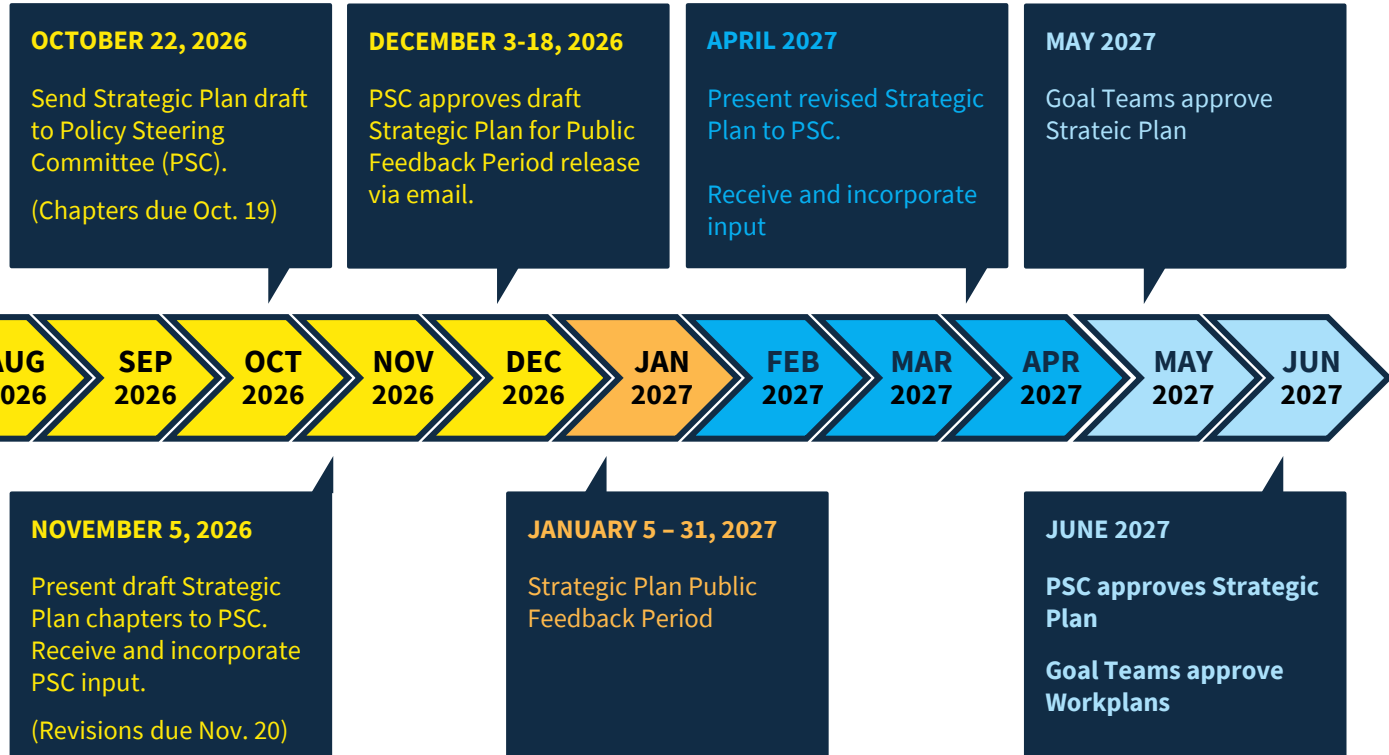

- Outcome language (including targets)
- Baseline and Current Condition
- Monitoring Progress and Indicators
- Outcome Situation Analysis
- Snapshot of Signatory Programs
- Management Approaches for the Outcome
- Participating Partners

NOTE: Signatory Statutory Authorities, organized by goal and outcome, will be included, likely as an Appendix

RENPS, Toxics, & WQSAM Workplans

- Separate 3-year Workplans will include:
 - Narrative summary
 - Descriptions of the major actions to be undertaken
 - Project lead and participating partners
 - Human and financial resources needed and committed, as well as potential sources to fill gaps
 - Timeline for completion
 - Performance targets and deliverables

Timeline

Estimated Total = 162–198 Pages

Section/Sub-Section	# of Sections	Recommended Pages per Section	Recommended Page Total
Introduction	1	2-3 pages	2-3 pages
Accountability	1	2-4 pages	2-4 pages
Goal	4	2-4 pages	8-16 pages
Outcome	21	7-8 pages	147-168 pages
Appendix	1	3-7 pages	3-7 pages

Snapshot of Signatory Programs

Signatory representatives on Chesapeake Bay Program Goal Teams are asked to provide the following information for each Chesapeake Bay Watershed Agreement Outcome, as applicable:

- A snapshot of one to three featured programs, including Fiscal Year 2025 appropriations, a hyperlink to the program webpage, and a one sentence description of how the program relates to Outcome attainment.
- The most pertinent statutory authorities, hyperlinked if appropriate

The following information is submitted by: (please your name here)

Signatory Partner: (please type signatory jurisdiction or organization name here)

Snapshot of Signatory Programs

Managing a large and difficult restoration and conservation program with “no assurance about the level of funds that may be available beyond the short term” (GAO, 2028) is a challenging undertaking that requires individual and collaborative action from signatory partners, as well as the many communities and individuals who live, work, play and learn in our region. This “Snapshot of Signatory Resources” seeks to better recognize the significant contribution that individual signatory partners and federal agencies make towards outcome attainment. The existing programs and funding spotlighted below are not intended to represent the full range of resources available or required to support progress towards outcome attainment; only the “biggest ticket” programs are included for each outcome and signatory partner. It is important to note that funding is reported from a single point in time (fiscal year 2025) and is not representative of future investments. Identifying the most critical programs and resources that exist at a particular moment in time can help the partnership focus its collaborative efforts on activities that have the greatest impact, and which don’t duplicate the work of existing programs.

IMAGINARY State of Narnia - Backyard Bird Outcome Examples

- [Keeping Cats Indoor Program](#) (\$180K in FY 25) helps families shift to indoor-only cats, protecting pets and local birds alike through how-to workshops, enrichment starter kits and DIY [catio](#) plans.
- [Songbird Sanctuaries Program](#) (\$300K in FY 25) protects and restores shrubland, forests, and meadows across public and residential lands, creating connected corridors and engaging communities in stewardship and songbird monitoring.
- [Building for Birds](#) (\$190K in FY 25) offers a tax credit to small businesses and community organizations for the installation of treated windows or the retrofit of permanent decals on existing windows to reduce bird collisions.

Guiding Questions

- What are the greatest challenges impacting progress towards Outcome attainment?
 - What scientific, environmental, fiscal or policy-related factors impact our work?
 - Which challenges are shared among Outcomes?
- Which challenges to Outcome attainment will be the most critical for partners to address over the next six years?
- What programs are currently being implemented by jurisdictions/agencies?
 - Are there efforts that CBP should avoid duplicating?
 - Are there any gaps in existing efforts?
- What general approaches or actions should CBP undertake to fill gaps and/or address the challenges to goal and outcome attainment?
 - Which approaches should be coordinated across Goal Teams and Workgroups?
