

Attachment A - Comments on Phase 5.2 Development of Phase 5.3

Gary Shenk

WQGIT

10/19/09

Phase 5.2 timeline

- May – completed phase 5.2 calibration
- June – presented results to Modeling subcommittee and WQSC
- Oct 1 – Deadline for review
- Dec 1 – Scenario Builder run
- Jan 1 2010 - Phase 5.3 calibrated

Issues raised

- Pasture and Grazing BMP
 - Expert panel convened
- Incorporation of state nutrient application and farm practice data
- Potomac calibration
- Point source locations

Scenario Builder Issues

- Fix and integrate Crop Uptake and Nutrient application
- New Crop Cover Data
- Ag Census 2007 and pre-1997
- Ag practice effects on sediment
- Urban Land use: 4 points in time
- Land use for combined sewer
- BMPs
- 92 Segmentsheds

Other Phase 5 Issues

- Sensitivity Testing
- Incorporate stream restoration BMP
- Streamlining of processes
