

Water Quality GIT Quarterly Newsletter

Jackie Pickford and Hilary Swartwood

Feb 2022

Why are we putting together a newsletter?

- The WQGIT is extremely busy, and it can be difficult to keep up with all the various workgroups, projects, schedules, and deadlines.
- Announcements and other important information can get jumbled in people's inboxes.

Purpose of the newsletter: To be a consolidated source of information on the inner workings of the WQGIT and it's Workgroups for both members and interested parties.

Our Vision

- **Announcements**
 - *E.g., Approval of at-large members, release of CAST21, etc.*
- **Current Projects**
 - *E.g., Phase 7 timeline and work plan - description and updates*
- **Workgroup Updates**
 - *E.g., General updates, decision items, upcoming meetings, etc.*
- **Publications and Reports**
 - *E.g., Release of expert panel reports, etc.*
- **Funding Opportunities**
 - *E.g., NFWF Small Watersheds Grant RFP (due dates, POC), etc.*

We would like your feedback!

- Would this newsletter be **helpful for members?**
- Is a quarterly release **too frequent?** Not frequent enough?
- Are there **additional items or topics** we should include?
- Are there **unnecessary items or topics** on our current list?
