RENPS Management Strategy Development

- Source sector workgroups and WTWG were asked to complete a worksheet to help draft the management strategy for the RENPS outcome. Content includes:
 - Questions regarding where we are and how far we've come
 - Specific tasks, needs, or priorities that we are thinking about for the coming months/years
 - Key gaps or challenges
 - Brainstorm management approaches
- This is a starting point, and feedback will be iterative. Those with feedback on the management strategies should reach out to WTWG leadership and consider attending the **June 22-23 Hybrid CWGT meeting.**
- **Summary of Responses**
