# Jurisdiction Data Request for 2021 Federal Agency Progress Evaluation

## What we're requesting

An export of BMPs in your database that are associated with major federal agencies. The list should include the agency name and state unique ID to identify the BMPs in NEIEN and CAST.

## Why we're asking

**This request is the result of recommendations from our 2019 Federal Agency Progress Evaluation.**

Your response will help us provide more specific recommendations to improve the federal BMP record and facilitate coordination between federal agencies and jurisdictions.
