

2026 Forestry Workgroup Meetings

Does our current meeting time work for you (First Wednesdays, 9-11am)?

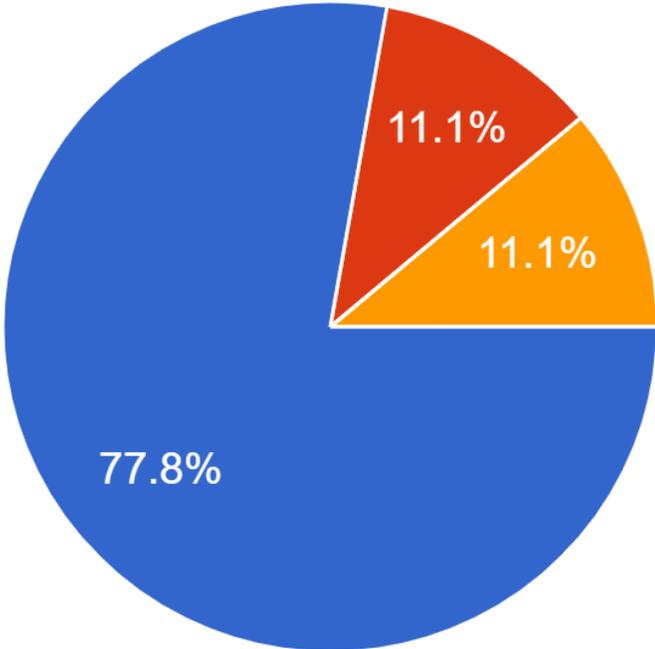

9 responses

Input Received

Does the meeting duration seem appropriate to you (2 hours?)

9 responses

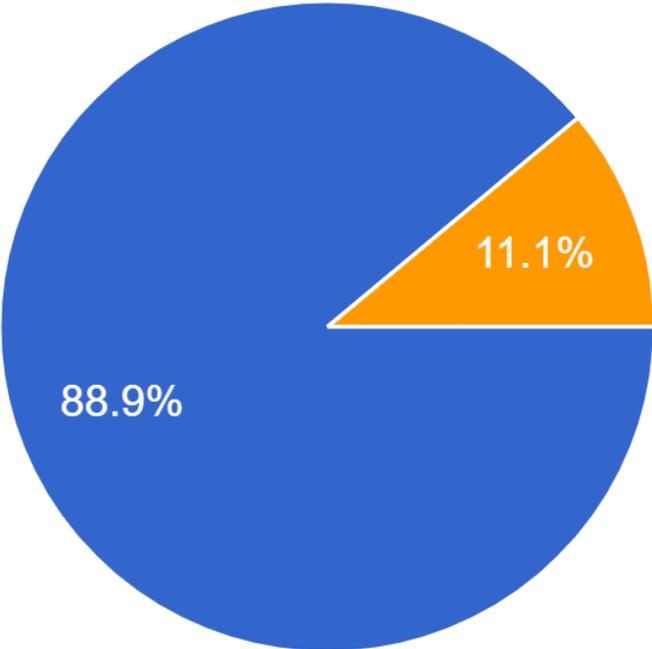

- Yes
- No- Meetings should be longer
- No- Meetings should be shorter

Input Received

Does our current meeting frequency (monthly) seem appropriate?

9 responses

- Yes
- No- We should meet more frequently
- No- We should meet less frequently

Input Received

Input on Meeting Timing/Frequency/Duration

Longer b/c we often run out of time and there's always so many great things to discuss!

Meeting are so long and frequent - how you expect people to attend each one is unrealistic

Tuesday mornings would be ideal time, but can make Wednesdays work ok.

I often have conflicts during the current time (1st Wednesday 9-11)

Would be lovely to have access to recordings for any missed or just reviewing things more than once as they fly by, if possible.

- +
- • Any additional input on our meeting timing/frequency/duration?

Input on meeting topics

- Anything connected with the progress of planting and maintaining more quality trees!
- Nothing comes to mind! I thoroughly enjoy attending the meetings :)

What topics would you like us to address in 2026?
