

WELCOME TO THE SUSTAINABLE FISHERIES GOAL IMPLEMENTATION TEAM'S BIANNUAL MEETING

Saint Mary's College of Maryland
December 18 – 19, 2017

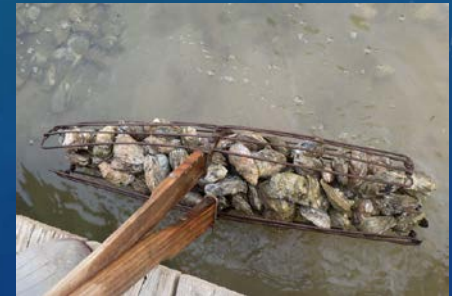

Restoring Oyster Reefs in 10 Tributaries by 2025

TODAY'S AGENDA

Oyster Restoration

- Oyster Restoration Status in the Chesapeake Bay
 - **LUNCH**
- Virginia Selection of the Lower York and Great Wicomico
- Adaptive Management through Goal Setting Methods
- Maryland Oyster Stock Status
 - **BREAK**
- Oyster Reef Ecosystem Services
- Oyster Best Management Practices Expert Panel
- Member Updates

Decision-Making Process

- Decision by consensus
- Process seeks the agreement of most participants and the resolution or mitigation of minority objections

Aim to be:

- **Inclusive:** as many stakeholders as possible
- **Participatory:** actively solicit input from all decision-makers
- **Cooperative:** strive to reach the best possible decision for all members
- **Egalitarian:** all members have equal opportunity to participate
- **Solution-oriented:** emphasize common agreement over differences
