# Land Use Methods and Metrics Development Outcome

OUTCOME DISPOSITION ADVICE TO  
MANAGEMENT BOARD:

[DISPOSITION]

**OUTCOME:** Continually improve our knowledge of land conversion and the associated impacts throughout the watershed. By December 2021, develop a watershed-wide methodology and local-level metrics for characterizing the rate of farmland, forest and wetland conversion, measuring the extent and rate of change in impervious surface coverage and quantifying the potential impacts of land conversion to water quality, healthy watersheds and communities. Launch a public awareness campaign to share this information with local governments, elected officials and stakeholders.

- GOAL: Land Conservation
- LEAD: Maintain Healthy Watersheds Goal Implementation Team (GIT 4) – Land Use Workgroup
- [Additional Details of Recommendation]
- [Key factors from Guiding Questions and EC Charge]
