# **Summary of Mentimeter Feedback**

## **Future Topics of Interest for the WTWG**

Caroline Kleis, CRC & Auston Smith, EPA

---

---

# Introduction

- At the April WTWG meeting, participants were asked to provide topics of interest for future WTWG meetings in 2026 and beyond.
  - Results were summarized by key theme, noting the number of related responses, along with a full list of responses. The document is posted [here](#).
  - Today: Themes will be discussed with the workgroup, and the workgroup will be asked to prioritize these thematic areas.
-

# Themes and Next Steps

Reporting and Verification  
Improvements/Efficiencies

Increased Coordination with  
Federal Partners

WTWG Processes

BMPs & BMP Protocols

Specific Technical Areas of Interest

## Discussion Questions:

- Of these themes, which interest you the most? Which topics should the WTWG prioritize in the next few months?
  - Do these themes capture your responses accurately? Are there other topics or themes you'd like us to pursue?
  - Given these topic areas, are there any particular experts or groups you would like to see come talk to the WTWG?
-
