

Kevin Du Bois

Department of War | Chesapeake Bay Program Coordinator

kevin.r.dubois.civ@us.navy.mil

Mr. Du Bois graduated Cum Laude from Southampton College in 1983 with a Bachelor's degree in Marine Science and completed his Master's degree in Marine Environmental Research in 1986 from the State University of New York at Stony Brook, School of Marine and Atmospheric Sciences. Over his 40+ year career, Mr. Du Bois has worked as a state Fisheries Biologist, Sensitive Land Acquisition Specialist, USFWS Endangered Species Biologist, wetland regulator and living shoreline expert, and environmental educator and has the ability to work and think outside silos, and across disciplines and GTs. Mr. Du Bois spent ~20 years implementing Virginia's Chesapeake Bay Preservation Act and Erosion and Stormwater Management Act. He has spent the last eight years as the DoW's Chesapeake Bay Program Coordinator and has been active in Goal Teams and workgroups throughout the partnership including the CWGT's Watershed Technical Workgroup, Urban Stormwater Workgroup, and Federal Facilities Workgroup. With DoW as the largest federal owner of developed land in the watershed, and with over 400,000 acres under management, Mr. DuBois has served as an At-Large member of the WTWG and would like to retain that seat to represent federal land-owning and other federal interests within the Workgroup.
