The Sustainable Fisheries Goal Implementation Team (Fisheries GIT) continues to provide a forum for connecting science and policy across jurisdictions and the Chesapeake Bay ecosystem. The diverse team meets bi-annually in June and December of each year.

For Day 1 of this December 2014 meeting, Fisheries GIT members will provide their expertise during breakout sessions to discuss the fisheries management strategies to support the Chesapeake Bay Watershed Agreement signed in June 2014. Day 2 will be devoted to discussion of priorities including oyster restoration progress, CBSAC updates, and the invasive catfish.
