

DO Webinar Series 2013

OBJECTIVE:

Review various methods for examining DO through a webinar series.

DECISION ITEMS:

- Format?
- Timeline?
- Topics and Presenters?

POTENTIAL TOPICS:

1. CBP Interpolator – Baywide current conditions (L. Hernandez or B. Romano)
2. EcoCheck report card (C. Wicks)
3. 303d DO Assessment (L. Hernandez or R. Tian)
4. DO prediction load + wind (W. Boynton et al.)
5. Wind direction changes and effects on DO patterns (M. Sculley)
6. Kriging findings (Murphy)
7. DO assessments related to management implications (L. Harding)
8. DO model study and implications of the findings to monitoring, modeling and management (M. Friedrichs)
