9:00 Welcome and Introductions

Sally Claggett

9:10 Forest Conservation Maps

Sally Claggett

Sally will discuss the status of Priority Forest mapping the FWG has been doing with the Chesapeake Conservation Partnership and publication on LandScope over the last few months. As a reminder, the forest goal for the CCP is to: Protect the Chesapeake watershed's most ecologically and economically valuable forest land from conversion--headwater forests, riparian forests, large forest blocks, and highly productive timber growing soils.

9:40 WIP III Planning

Julie Mawhorter

Julie will lead a discussion on forest planning for WIP III (the FWG's WIP Tool) and some of the resources that the FWG can provide to states, federal facilities, and local governments setting WIP targets. Ideas on other useful data and information will be requested.

9:50 Robust Round Robin

All

Given additional time, FWG members should provide some depth to their normal updates of current projects e.g., any new direction for their respective agencies, big new projects on the horizon, or other items of note.

10:30 Adjourn
