FY2020 GIT Funding Allocation Process

Process Essentials
- All GIT Priority 1 projects will be funded
- All remaining projects that have been submitted will be evaluated and scored by the GITs (one score per GIT)
- Projects will be ranked by average score and projects will be funded based on score until funds are depleted

Assumptions
- GIT 5 will establish a single Priority 1; the remaining GIT 5 projects will be included in the pool of projects to be scored
- Each GIT will provide a single score for each proposal, taking input from coordinators, staffers and other GIT members as appropriate
- Priority 1 projects will be evaluated (GIT self-eval or whole group TBD)

2020 GIT Funding September Timeline

Week	Activities
August 31 – September 4	• GIT Funding program team will complete instructions for submitting video project overviews and details for 9/29 meeting
September 7 - 11	• GITs coordinate with technical leads on 9/29 meeting plans • Review instructions and start project overview video
September 14 - 18	• Record videos, embed in PowerPoint slide • Submit videos by 9/16 to Chantal Madray • Scoring materials finalized and distributed to GITs
September 21 - 25	• Complete individual project reviews and coordinate scoring within GITs • Contact project leads as needed with questions and suggestions
September 28 – October 2	September 29, 1 pm – 4pm *Funding Decision Meeting* • Tech leads provide one or two-minute opener then 5 minutes of Q&A, comments, and suggestions for improvement • GITs will have a brief opportunity to adjust final scores • Group review and discussion of scoring results and determine final set of recommended projects
