- Welcome, and note that this meeting is open to the public
- General updates on reef construction, project status, monitoring, etc.
- There has been a lot of reef construction this summer- check in to see if everyone has the info (reef name, material, location, etc) to NOAA so it can go into the GIS geodatabases.
- In preparation for developing the 2021 VA Annual Update, we will need to understand who spent what on in-water reef construction and seeding in VA's five target tribes. Please either report that number today, or send to Stephanie/ Andrew (NOAA) this month.
