

November Non-Tidal Workgroup Conference Call

November 20, 2013, 10:30am – 12:30pm

Joe Macknis Memorial Conference Room (Fish Shack)

Conference Line: 1-866-299-3188, Code: 267-985-6222

Adobe Connect: <https://epa.connectsolutions.com/ntwg> (enter as guest)

Meeting materials can be found at following website:
<http://www.chesapeakebay.net/S=0/calendar/event/18871/>

AGENDA

10:30 am Introductions and Announcements (*Scott Phillips – USGS*)

10:35 Technical Presentation: Lessons learned from implementing BMPs and water-quality improvements (Christina Lyerly, UMCES).

C. Lyerly will share the revisions made to the Lessons Learned Brochure as per suggestions during the review process.

Supporting material: [Presentation given to the TMAW \(11/13/2013\)](#)

11:00 Overview of 2012 updates of trend and load indicators (*Joel Blomquist – USGS, Mike Langland – USGS, and Doug Moyer – USGS*)

The update of indicators through 2012 includes providing the data for individual sites in the NT network, maps of results, and summaries of long-term trends, 10 year trends, and yields. J. Blomquist and D. Moyer will discuss the results of the update and changes that have been made to some indicators.

12:00 PM Next steps on “BASIN” process (*Peter Tango – USGS*)

Peter will discuss the status of the BASIN process (building and sustaining integrated networks)

Supporting materials: [Briefing Paper](#) that was given at the October MB meeting.

12:30 PM Adjourn

NEXT NTWG CONFERENCE CALL

December, 18th, 2013

1PM – 3PM
