

## **Guiding Questions for GIT/MB Breakout Groups**

### **February 8-9, 2017 SRS Meeting**

#### **Goal Implementation Teams:**

1.a Reflecting on important issues that you have heard from the panels and the discussions (or are otherwise aware of), which of those could influence your outcome strategies and workplans going forward?

1.b How could these issues affect the assumptions, factors, gaps and management approaches identified in the management strategies and workplans?

Progress/CBP Indicators

Science

Fiscal/Financial

Policy

2. What are important existing or new cross-GIT or within-GIT collaborations that your GIT could pursue?

3. What points do you recommend are brought forward to the PSC in the upcoming 2014 Watershed Agreement progress report and what other actions should be requested of the PSC?

## **Guiding Questions for GIT/MB Breakout Groups**

### **February 8-9, 2017 SRS Meeting**

4. Have there been any evaluations (scientific panels, independent evaluations, analyses from other watersheds) since the strategies were written that could influence the future approach?

#### **Management Board:**

1. Among the issues discussed by the panels, on which issues can the MB effectively help the GITs to consider and be responsive to in strategy adjustments?

2. Were there issues identified that need greater focus and attention and where best do we direct energy toward them in our strategy review system (SRS)?

3. As the MB takes an active role in helping the GITs with problem solving and shared decision making during quarterly progress meetings and at other points, what information would be most helpful for the GITs to share?

4. What points do you recommend are brought forward to the PSC in the upcoming 2014 Watershed Agreement progress report?
