

The Urban BMP Review Panel Queue

In Process (2011-mid 2012)

- Stormwater retrofits
- Stream restoration (includes Regenerative conveyance systems)
- LID and runoff reduction under new state performance standards for new and redevelopment ¹
- Urban fertilizer management

Requested (2012)

- Enhanced erosion and sediment controls (WV) ¹

Proposed (2012-2013) ²

- Soil amendments/sub-soiling
- Impervious disconnection
- Urban tree planting/reforestation (in conjunction with forestry work group)
- Illicit discharge elimination (in conjunction with wastewater working group)
- Urban filter strips and upgraded stream buffers (in conjunction with forestry work group)
- Floating wetlands
- Wetland/floodplain restoration
- MS4 minimum management measures (stormwater education/outreach/source controls, spill prevention and response, outfall screening)
- Re-analysis of existing CBP-approved urban BMPS

¹ state or states have requested it as an interim BMP in Phase 1 and/or 2 WIP so that a review panel is required.

² lumped versions of Priority CBP BMPs on 1/13/11 WQGIT matrix
