

# Watershed Education for Elected Officials

Laura Cattell Noll  
September 12, 2019

# Project #1: Implementation Support for Local Official Watershed Education and Capacity Building

- Identify trusted sources
- Build relationships and engage in workgroups
- Collaborate on programming
- Deliver content via workshops and conferences

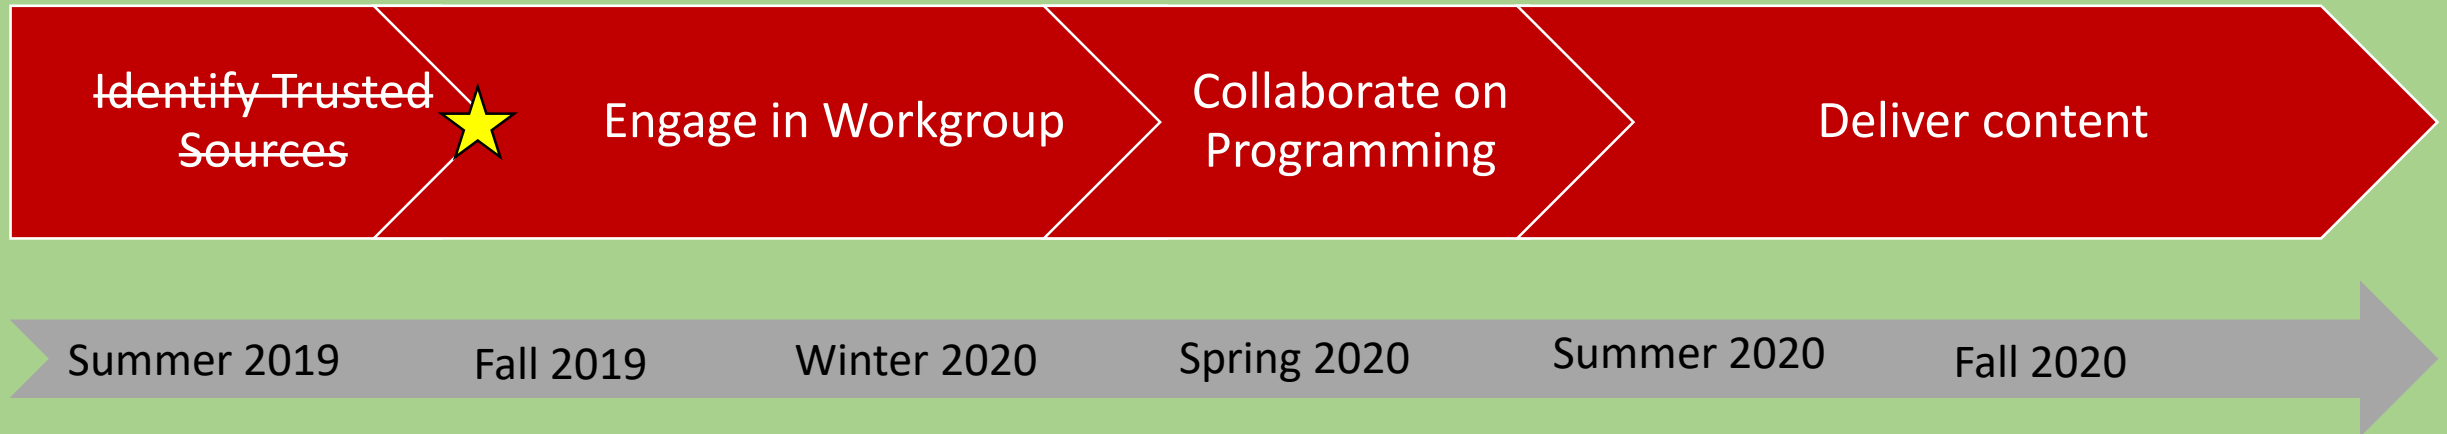

# Project #2: Cross-outcome Watershed Educational Materials for Local Governments

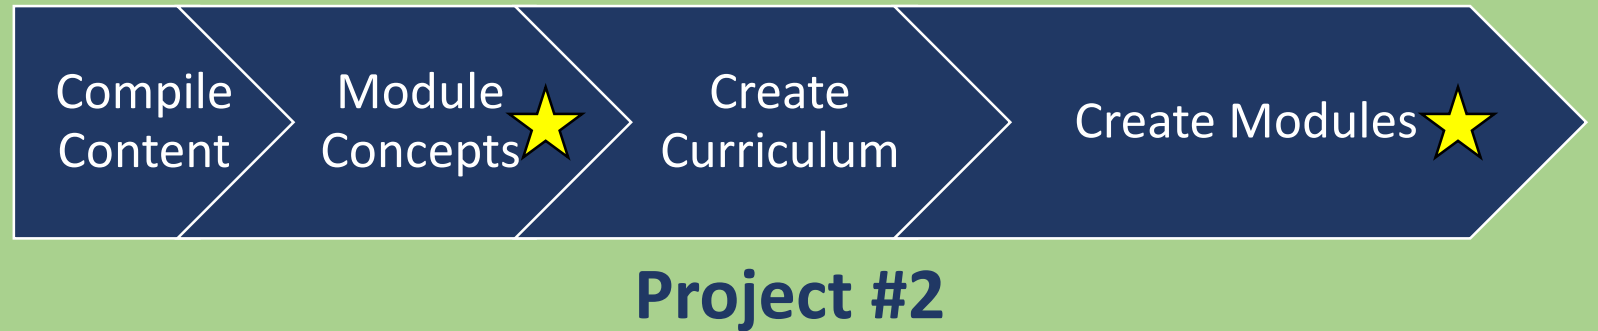

- Compile content and identify local benefits of outcomes
- Develop 4-8 educational modules that incorporate multiple CBP outcomes in a way that resonates with local leaders
- Create curriculum for full program content
- Develop Module 1: Watershed 101 and 4 – 8 additional modules

# Project Timelines

## Project #1

★ = input during LGAC meeting

# What we need from you:

- What module topics would make sense for elected officials?
- Input on content during development
- Sharing content after it's created!

**Thank you!**
