**AGENDA**

1:30 Welcome/Confirm Call Participants and Updates – Bob Koronczi

1:40 Potential Changes to Nutrient Applications in Scenario Builder - Gary Shenk  
Gary will present recommendations of the Agricultural Workgroup on the calculation of nutrient applications in Scenario Builder, including recommendations to address the WQGIT's concerns with the handling of nutrient management. For each recommendation, the estimated implementation time and the likely level of impact on modeled loads will be presented (Attachment A).

**DECISION REQUESTED:** WQGIT recommendation on which scenario builder solution(s) to pursue in the near term.

2:20 Initial Analysis of Water Quality Non-Attainment – Jeni Keisman  
Jeni will present the results of her initial analysis for the increase in dissolved oxygen and chlorophyll-a non-attainment at target loads under Phase 5.3 (Attachment B).

3:00 Follow-Up and Next Steps for Clarity/SAV Assessment – Lewis Linker  
Lewis will present to the WQGIT the list of segments that fall entirely or partially within no-grow zones, as well as segments that do not have SAV restoration goals but have a clarity criteria and application depth (Attachment C). Lewis will also discuss next steps for addressing the questions raised by the WQGIT regarding EPA's clarity/SAV assessment.
