

**CHESAPEAKE BAY PROGRAM
WATER QUALITY GOAL IMPLEMENTATION TEAM
MAY 24, 2021 | ACTIONS AND DECISIONS**

Meeting Materials: [Link](#)

Action: Hilary Swartwood will send out a poll to determine the WQGIT's comfort level with an in-person meeting in October 2021. This will be discussed in greater detail at an upcoming WQGIT meeting.

Action: WQGIT leadership and other interested WQGIT members will meet with Gary Shenk who will provide clarification on the updates to the CBP partnership's modeling tools.

Action: At the June 23rd meeting, WQGIT will be requesting a decision on the following:

1. The process and schedule for the proposed land use change product through August 23, 2021.
2. The list of errors in the land use change product that will be fixed and those not fixed before it is used in CAST-21.
3. How the proposed land use change product may be used in CAST-21 and CAST-23, to replace modeled change with measured change and to inform future updates of modeled change through 2025.

A poll will be sent out prior to the June meeting to assess the WQGIT voting memberships' stance on the land use decisions being requested using the consensus continuum and provide time for the CBPO Land Use team to address any concerns.

Action: Hilary Swartwood will provide a word version of the Climate Narrative document to WQGIT members for their review. WQGIT should provide feedback / comments on the Climate Change Narrative to Lew Linker (linker.lew@epa.gov) by COB Tuesday, June 15, 2021.
