

CHESAPEAKE BAY PROGRAM WATER QUALITY GOAL IMPLEMENTATION TEAM
SEPTEMBER, 21ST 2009 CONFERENCE CALL

Conference Call Phone Number: 866-299-3188 Conf Code: 5176284390

AGENDA

- 1:30 PM** Welcome/Confirm Call Participants Rich Batiuk
- 1:35 PM** Updates to Critical Period Analysis Andrew Parker
Andrew will provide the results of the additional analysis for determining the critical period as requested at the September 9 WQGIT.
Additional analysis includes: Log Pearson III Method for the frequency analysis; extended time period; and a de-trending analysis (**Attachment A**).
- 1:50 PM** Review of Base Year and Update on 5.2 Scenarios Gary Shenk, Jing Wu
Gary and Jing will brief the WQGIT on the base year analysis, updates on the 5.2 scenarios and respond to the questions raised during the base year presentation on the 9/14 conference call (**Attachment B**).
DECISION REQUESTED: WQGIT approval to use phase 5.2 for the TMDL allocations between the basin jurisdictions.
- 2:20 PM** Review of Options Analysis for Target Load Methodology Gary Shenk, Lee Currey
WQGIT members will be presented with the result of the survey of the partners on their preferences for the target load methodology (**Attachment C1**). Lee Currey will also present an alternative target load methodology proposed by Maryland (**Attachment C2**).
- 3:30 PM** Review/Approval of Enhanced Program Implementation Level Scenario Definition Jeff Sweeney
Jeff will brief WQGIT members on the updated Enhanced Program Implementation Level (EPIL) Scenario definition (**Attachment D**).
FEEDBACK REQUESTED: WQGIT feedback on the EPIL scenario definitions.
- 4:00 PM** Review/Approval of Air Allocation Plan Lewis Linker
Lewis will present the proposed next steps for the air allocation (**Attachment E**).
DECISION REQUESTED: WQGIT approval to proceed with the proposed plan.
- 4:30 PM** Adjourn
