Are these animals **cute** or **scary** or **neither**?

Should these topics be **decisional** or **informational** or **neither** at the WQGIT?

Should these topics be **decisional** or **informational** or **neither** at the WQGIT?

Should these topics be **decisional** or **informational** or **neither** at the WQGIT?

Should these topics be **decisional** or **informational** or **neither** at the WQGIT?

What office hours times are you available for?

How many office hours sessions do you feel would be appropriate?

Number of Office Hours

2.7

None

Many

16

Open-ended Comments (will be left open through the end of today)

I think that though most of our topics are more informational, we'll probably have a few members flag something for a decision maybe after the fact.

Agriculture is being targeted for aggressive load reductions. The modeling decisional items associated with agriculture should be looked at by WQGIT.
