

AGENDA

Wastewater Treatment Workgroup (WWTWG)

Teleconference

Tuesday, May 2, 2017, 10:00 AM – 12:00 PM

Conference Line: 866-299-3188, code: 267-985-6222#

Adobe Connect: <http://epawebconferencing.acms.com/wwtwg/>

Calendar Page: <http://www.chesapeakebay.net/calendar/event/25004/>

10:00 AM **Welcome, Introductions, and Announcements** —Tanya Spano (Chair)

Action item: Approval of April minutes.

10:10 AM **Discussion of Review Process Document for Phase 6 Model** –Jurisdictions

The WWTWG will review the workgroup responsibilities and tasks for the phase 6 model review process this summer, and discuss approaches for fatal flaw review. This document is expected to be formally approved by the WQGIT at the May 8 WQGIT conference call.

Decision item: The WWTWG will be asked to agree on the proposed schedule and process for reviewing the wastewater portions of the Phase 6 Model documentation.

10:40 AM **SSO and Bypass**—Ning Zhou (VT CBPO) and Jurisdictions

The WWTWG will continue to discuss the SSO and Bypass issues and discuss the data availability by jurisdiction, and develop a plan to continue to investigate this issue.

Decision item: The WWTWG will be asked to agree on an overall approach and timeframe for addressing the SSO and Bypass issues.

11:10 AM **Approval of Sewer Spatial Coverage in Phase 6 Model** – Jurisdictions

The WWTWG will discuss final comments on the CSO and sewer service area spatial coverage that is currently available on the Phase 6 land use viewer website. WWTWG members should have reviewed this coverage and submitted any major comments using the online tools.

Decision item: The WWTWG will be asked to approve the CSO and Sewer Service spatial coverage available on the Phase 6 Land Use Viewer website.

11:30 am **Ground discharge** - Ning Zhou (VT CBPO) and Greg Busch (MDE)

The WWTWG will discuss adding groundwater discharge as a third population category along with sewer and septic.

Feedback: The WWTWG will be asked for their thoughts on data availability and the appropriate level of effort associated with potentially pursuing this new population category.

11:50 am **Updates**

- Webinar topics—Tanya and Ning

12:00 PM **Adjourn**

Next conference call:

June 6, 2017 10:00 AM – 12:00 PM

June Agenda Items:

- The WWTWG will review Chapters 1 and 8 of the Phase 6 watershed model documentation (to be released June 1) and discuss approaches to begin fatal flaw review.
- WWTWG Phase 6 Review Tasks:
 - Review the change in discharged loads over time to ensure it aligns with data provided by jurisdictions and the model simulated loads reasonably reflects what has occurred over time.
 - Coordinate with Modeling Workgroup on requests for specific sensitivity analysis through the scheduled interactive webinars or through other means.
