

Toxic Contaminants Research
Outcome Strategy and LAP
2021-2022

Feedback and Timeline

- No comments of significance for strategy or LAP
- PP science needs were brought into Research as planned
- Due to Management Board on Jan 7
- Final review for fatal flaws due NLT Dec 21

Input - Factors Influencing Success Table

- Input from Kirk Havens and Carl Hershner on completing the Metrics and Expected Response portions of the table
- Targeted tasks in LAP that the workgroup as a whole is responsible where we have more control about progress and success
- Open to feedback and comments

STAC Proposal?

- Items in LAP for 2021 that the TCW workgroup is tasked that could benefit from broader scientific input?
 - Mercury assessment
 - PFAS impacts on ecosystems
 - Other topic of interest?
