Chesapeake Bay Program Creative Team (Communications and Web)

The Communications team has created two new communications packets, focused on Conowingo Dam and Planning Targets. These packets will be delivered to the Management Board next week.

Last month, Caitlyn attended the Pennsylvania Environmental Educators Conference. She also presented on the Bay Program and our websites for the Ellicott City elementary school's first Green Night, which will likely be an annual event.

Will recently posted a new [video](#) on an oyster restoration project in Harris Creek.

The Web Team is working with the Habitat GIT's Wetland Workgroup on a new site to help landowners restore wetlands on their property. The team has come up with a name for the site, created a draft logo and done an initial design sprint to determine what the site might look like.

Delaware DNREC

- DNREC hosted viewing of Center for Watershed Protection Webcast "BMP and Stream Monitoring"
- Reclaim Our River program hosted a "Gardening for clean water and butterflies" presentation
- Reclaim Our River program to host "Rain Barrel Building Workshop" on 4/14
